EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Muzilla on 12-08-2006.

The application has been amended as follows:

In claim 1, at line 9, after "second output signal",

--; and wherein the evaluation unit associates the received signal with a stimulation pulse in respect of time and detects a feature of a polarization artifact as a signal feature in the received electrical signal -- has been inserted.

Claim 2 has been canceled

In claim 3 at line 1, after "claim",

"2" has been deleted

--1-- has been inserted

In claim 15 at line 1, after "claim",

"2" has been deleted

--1-- has been inserted

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a method of determining stimulation success by evaluating features of a received signal including features of a polarization artifact.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark W. Bockelman whose telephone number is (571) 272-4941. The examiner can normally be reached on Monday - Friday 10:00 to 6:30.
